Synopsis

Man of Steel's red carpet premiere in the U.S. was attended by its principal cast members in New York City on June 10, 2013. The film was released to the general public on June 14, 2013, in conventional, 3D, and IMAX theaters. The film became a box office success, grossing more than \$668 million worldwide, despite a mixed response from critics. Some critics highlighted the film's narrative, acting, visuals and reinvention of the titular character, while others were critical of the film's pacing and lack of character development. A follow-up film featuring Batman and Wonder Woman is planned for July 17, 2015.
