SummaryHome

Dear Rachelle.

Based on the information you have provided, you likely have acute bronchitis.

I am prescribing benzonatate (Tessalon Perles) 100 mg to treat your cough. Take one to two tablets by mouth three times a day as needed for cough. There are no refills with this prescription.

I am prescribing an antibiotic Azithromycin to help you feel better. Azithromycin comes as a 250 mg tablet. Swallow two (2) tablets on the first day then one tablet a day for days 2-5. There is no refill with this prescription.
